

## AFRICA

CATHERINE COLE

After several years of college teaching, and one year with a Ghana Girls school, Catherine Cole went to Kenya in November, 1963, as a teacher for the Chavakali Secondary School. With a doctor's degree in biology from the University of Michigan, she is well qualified to give scientific instruction in any of our Kenya schools.

Although she is not a Friend, Catherine Cole understands and appreciates Friends principles and testimonies. She has been active in church and civic programs in the communities where she has taught. She participated regularly in the South Dakota Passion Play, taught Sunday School classes, and one year headed up the Red Cross drive in her community. Her wide range of interests stems from a strong religious motivation to serve. She enjoys reading and photography.

In June of 1964 she transferred to the Kai-mosi Girls High School.
