EARLHAM GETS FOURTH IN COMPLETE RETURNS FROM DEBATING LEAGUE

Wabash Comes First in Final Ranking
—Notre Dame and Valparaiso
Tie for Second Place.

BUTLER HOLDS LOWER BERTH

Official returns from the Indiana Intercollegiate Debating League were received this morning from Professor W. C. Morro of Butler, state secretary. The final ranking, according to the number of debates won and lost and the total judges votes out of a possible twenty decision is:

Results of the second series of debates were as follows:

Affirmative	Negative
Butler2	PePauw3
DePauw0	Goshen5
Goshen4	Butler1
Franklin2	Earlham3
Indiana Univ.4	Franklin1
Earlham4	Indiana Univ.1
Purdue3	Indiana Cent.2
Indiana Cent.2	Valparaiso3
Valparaiso5	Purdue0
Notre Dame4	Manchester1
Wabash3	Notre Dame2
Manchester1	Wabash4

Final Ranking	Won	Lost	Dec.
Wabash4	0	14	
Notre Dame3	1	14	
Valparaiso3	1	14	
Earlham2	2	11	
Goshen2	2	10	
Indiana Univ.2	2	10	
Purdue2	2	9	
Manchester2	2	8	
DePauw2	2	7	
Indiana Cent.1	3	9	
Franklin1	3	8	
Butler0	4	6	

DIAMOND ACTIVITIES WILL COMMENCE AFTER VACATION

Although intercollegiate baseball at Earlham has been temporarily discontinued, practice for games with teams of Richmond Factory League and with Muncie teams will begin as soon as the improvements on Reid Field are completed. This will probably be soon after spring vacation.

More attention than ever before is being given to track, but there is ample material, both new and veteran, for a successful nine. Captain R. Hinshaw, Goar, Bookout, Tietz, Pitts, C. Kellum, H. Prevo, Sellars, Beasley, Hadley, Mendenhall and Nicholson are the men remaining from last year's squad. Nicholson is also working on the javelin throw for the track team. Several freshmen will make strong bids for positions in both the infield and outfield. Coaches Mowe and Higgins expect that they will be able to perfect a combination that can defeat the best of the Richmond Factory League teams.

Templeton, E. Raiford, Collins, Elder and Kirk are the members lost from last year's squad.

NEW SERVICE CLUB OFFICERS

At a short meeting Thursday evening the following officers were elected for the next year: President, Leslie Pennington; Vice-President, Robert Hinshaw; Sec.-Treas., Louis Barker. A committee consisting of Edwin Teale, Thomas Barr and Warren Fauquhar was appointed to arrange for the annual Service Club camp supper which will be held in a short time.

Because of the spring vacation there will be no issue of the Press next week. The next issue will be published Saturday, April 16.

JUNIORS SELECT SWAIN EDITOR OF 1922 ANNUAL

Robert S. Swain, of Richmond, was elected editor-in-chief of the 1922 annual at a meeting of the Junior class held Wednesday noon. A committee of three, consisting of Leon Cox, Mary Hill and Louise Meerhoff, was elected at the same time to assist the editor in the selection of his staff. This will be done within the next week.

Actual work upon the book will not begin until next year but plans for the work and contracts with the engravers and other preliminary preparations will be disposed of this spring.

FORTY-TWO ATTEND BANQUET OF CHICAGO-EARLHAM CLUB

Craig D. Butler, '14, Elected President
and Harold Peterson, '16,
Secretary-Treasurer.

The Chicago-Earlham Club held its annual banquet at the Morrison Hotel in Chicago on Saturday night, March 19th. Forty-two members were present, with President Edwards as the guest of honor. Following a pleasing program officers for the coming year were elected —Craig D. Butler, '14, president, and Harold Peterson, '16, secretary-treasurer.

While the guests were gathering around the table, which was in the form of a large E, four former Glee Club men, Harold Peterson, Leland Hadley, E. V. Arnett and Homer Bundy sang several of the old college songs. Following the customary silent grace, the friendly "How d' do" opened cross table chat with reminiscences of college days and inquiries for former friends which lasted throughout the meal. Several interesting toasts were given at the conclusion of the banquet.

Mr. Ross Williams, '14, the president of the club, introduced James R. Meek as toastmaster for the evening. Mr. Meek is one of Earlham's noted poets, and introduced the speakers and artists on the program with clever verse. Clayburn S. Jones, '84, told of pranks of college days. Helen Hadley, '20, entertained with a piano solo. Eunice Kelsey Carey, '14, responded to a toast, "The Do's and Don'ts of Earlham." Cecil Hill Stevenson, '14, sang two numbers. Harold Peterson, '16, in discussing "Pet Peeves," stressed the need of a recognition of an Earlham of today and tomorrow besides the one of yesterday. President Edwards concluded the program with an interesting account of present Earlham life, outlining the past year's achievements and explaining plans for increasing the endowment to an adequate basis.

"MENAECHEMI" BY CLASSICAL CLUB SUCCESSFULLY STAGED

Wit and humor prevailed last Saturday evening when the Latin play "Menaechmi" was presented by the Classical Club in the chapel. Before the play proceeded far the audience realized that all Latin is not Virgil and that the Romans thought of other things than Caesar's wars of conquest.

The play brought laughter from the audience throughout the entire action. The humor hinged on the ridiculous predicaments of twin brothers due to their striking similarity.

The members of the cast played their parts well and contributed largely to the success of the play. Credit is also due Miss McCoy for her work in costuming and coaching and to Professor Dean for his efficient supervision of the play.

CALDWELL, BOWLES, MILLS ELECTED TO PRESS CLUB

Clyde Caldwell, 22, Fairmount; Herbert Bowles, '24, Tokio, Japan, and Newlin Mills, 24, Indianapolis, were elected into membership in the Earlham Press Club at the last meeting of the club.

IMPROVEMENT ON OVAL PROGRESSING RAPIDLY; SPEEDSTERS TOIL DAILY

Track Prospects Continue Bright As
Veterans and New Material
Hit Their Stride.

SQUAD WILL BE CUT TO 18

If the present pace of construction is maintained, in the near future the pick and shovel crews on Reid Field will be ready to leave the tracksters in sole possession of a rejuvenated athletic arena. Regular practices of the track squad are being held while at the same time the wheelbarrows, and concrete mixers are getting a thorough work-out.

At the present time the tile is laid and the cement curbing on the north side of the field is in the forms. If weather permits a long step towards the completion of the work will be made in the coming week while the finishing touches on the track will be completed during the spring vacation. These improvements under the direction of Coaches Mowe and Higgins and accomplished by the work of men of the college, will place Reid Field as one of the most efficient athletic fields of its size in the state.

The track candidates have been grinding away at conditioning work in preparation for the big opening meet of the season, April 16, against Indiana University and for the hard schedule ahead. All events will have strong competitors for the Maroon and White this spring and thus far no discouraging injuries to important contenders have made their appearance. The performances of the various athletes are favorable to a good showing when the acid (Continued on page 4)

BASKET BALL INSIGNIA AWARDED TO EIGHT MEN

Four Veterans Graduate, Leaving Goar,
Hadley, Beck and Townsend
For Next Year.

Letters were awarded to eight men of the basketball squad by Coach Mowe Friday morning in chapel. The men who qualified by playing 100 minutes in seven games are: Capt. Lawler, Carey, Hall, Johnson, Goar, Beck, Hadley and Townsend.

The letter men have elected Gene Goar as captain of next year's squad. Goar won his second letter in basketball this year and is the only two year man who will be in school next year. Lawler and Johnson received their fourth letter in basketball and Carey and Hall their third letter. All four of these men graduate this year.

Tonight the season will formally close with the annual banquet which will be held in the east dining room. The entire basketball squad and their guests will attend. Miss Comstock, Professor and Mrs. E. P. Trueblood and Coach Ray B. Mowe will be the guests of honor. After the dinner the toast program which follows will be given:

Toastmaster Fonzo Lawler
Under the Basket Herbert Carey
Between Halves Coach Mowe
The Whistle Gene Goar
Long Distance E. P. Trueblood
The banquet will be followed by a theatre party for the players and their guests.

DOUBLE "E" MEN SPORT NEWLY ARRIVED INSIGNIA

Double "E" athletic men of the college are straining their vest buttons this week under the newly arrived pin of the club.

The pin is a small enameled maroon and white shield cut with a diagonal gold line and containing two gold "E's," raised on a larger shield edged with twelve pearls and four rubies.

MOONLIGHT FOR SENIORS— JUNIORS PICK ROOK CHAMP

Games, songs and general fun making kept the seniors happy last night at their party in the gymnasium but joy reigned supreme when Mina McHenry appeared with pans of hot taffy.

Adjourning to the grandstand the party pulled the taffy to a proper consistency by the light of the moon.

A progressive Rook party was held Friday evening in the Faculty Room in the Library by the members of the junior class. The solemn atmosphere which usually accompanies this room gave place to a less stern manner upon the advent of the card sharks. After an hour and a half spent in the pursuit of high scores, the partners announced as winners of the first prize were Miss Mildred Niggas, a guest residing at Selma, Ohio, and Paul Taylor. The "booby" prize was awarded to Miss Katherine Haviland and Leon Cox.

EARLHAM ORCHESTRA GIVES INITIAL CONCERT OF YEAR

College Musicians Under Directorship
of Miss Hall, Render Pleasing
Selections Wed. Evening.

Under the directorship of Miss Wilma Hall, instructor in violin, the Earlham Orchestra made its initial public appearance of the year and was warmly received last Wednesday night, March 23 in the college chapel. Madrigal Club, directed by Professor Garton, assisted in the evening's program by singing a group of selections.

Miriam Hadley played a special violin number, "Chinois Tambourin," by Kreisler, and Howard Monger, cornetist, gave another special selection, playing "L' Elegante," by Damare. Both were called back for another selection.

The orchestra, composed of twenty pieces, opened the program with Schubert's "March Militaire" and followed with an overture, "Pique Dame," by Suppe. In the third group the players reached the climax of the evening program with Hoffman's "Barcarole," and the selection from "Aida" by Verdi-Tobani were cheered to an encore.

Madrigal next sang a group of four selections, "The Smiling Dawn," "Beauteous Morn," "Dear Old Pal of Mine," and "Yesteryear." The audience, well pleased by the harmony of beauty and voice, called them back for two extra numbers.

Meyerbeer's "Coronation March," by the orchestra together with two encore numbers completed the program. A good sized audience of college and Richmond people heard the concert.

JUNIOR WOMEN MAINTAIN LEAD IN BASKET TOURNEY

Results from the four games played by each class team thus far in the race for high basketball honors of the W. A. A. show the Junior women are leading, with the Sophomores, Seniors, and Freshmen ranking in the order named. The Juniors remain undefeated and are the only team before which the Sophomores have been forced to bow, due, in a great part to the ability of Margaret Nicholson to register markers.

Great rivalry has developed between the constituents of the various teams and ample quantities of spirit are manifested concerning the outcome of the series. From the personnel of the three upper class teams a mythical varsity combination will be selected. According to a new ruling of the W. A. A. Freshmen are no longer eligible for varsity positions. Letters will be awarded at the annual W. A. A. banquet given near the close of school.

Ranking of the teams:	Won	Lost
Juniors	4	0
Sophomores	3	1
Seniors	2	2
Freshman	0	4

COMMITTEE REPORTS CRITICISM OF EARLHAM TEACHINGS UNFOUNDED

Committee Appointed to Investigate
Conditions Makes Report to
College Trustees.

ALL CRITICISMS ANSWERED

Adverse criticisms of the teachings at Earlham college is unfounded, a committee appointed to investigate the doctrines being taught here reported to the board of trustees of the college at its annual meeting today.

The investigation came as a result of action at the annual sessions of the Indiana and Western Yearly Meetings, 1920. These two meetings have jurisdiction over Earlham College.

A summary of the charges follows:

1. That some of the teachings in the Biblical department contravene the authorized standards of the Discipline, and the Richmond Declaration of Faith; that they do not accord with the teachings of Scripture in certain respects, and that such teachings tend to destroy faith in the character of the Lord Jesus Christ.
2. That what was charged as "the unproved evolutionary hypothesis" is taught in the scientific departments.
3. That the attitude of the head of the philosophy department with reference to Christian fundamentals, such as the new birth, experimental conversion, etc., is questioned.

Charges Answered

As against the charges made by the committee of ten and also certain quotations from letters written by other people, Dr. Alexander C. Purdy, of the Biblical department gave the committee a careful presentation of his teachings, together with his methods of teaching, presenting the notes and the outline used in the class room upon the various subjects in controversy.

The committee says in its report, "In his entire testimony Dr. Purdy im-

ENTRANTS ANNOUNCED FOR PEACE CONTEST WEDNESDAY

Four men have entered the local peace contest which will be held in the college chapel next Wednesday evening, March 30. The contestants are: Robert Jones, Edwin Teale, Clyde Caldwell, and Corbett Coldiron.

Complete drafts of the orations were handed to Professor Trueblood early this week. The subjects and order of the speakers will be:

Robert Jones—"Military Education."
Edwin Teale—"Is America the Obstacle to World Peace?"
Clyde Caldwell—"International Cooperation."
Corbett Coldiron—"The Way Out."

Cash prizes of \$15 and \$10 will be given by the Peace Board of the Five Years Meeting to the winners of first and second place.

The winner of this contest will also represent Earlham in the State Peace Contest to be held at North Manchester College, April 15. Manchester College, Wabash, Earlham, Indiana and Goshen will enter orators in this event. Last year this state contest was won by the Earlham orator.

PROF. TRUEBLOOD, TANNED, RESUMES COLLEGE DUTIES

Professor E. P. Trueblood who spent a winter vacation at Bradentown, Florida has returned to the college and resumed his class work for the remainder of the year. Outdoor work on his grape fruit ranch and "golfing" has given "Prof. Ed" a coat of genuine summer-time tan which makes his customary chapel smile unique among the faculty "make-ups."

During the absence of Professor Trueblood, Donald Snyder has had temporary charge of his classes.

NONE LIKE IT

There's no place like the Earlham campus, especially in the spring time. Anyone, whether an Earlhamite or not, will agree that it is easily the best college campus in the state. Passing tourists almost invariably stop and comment favorably on the verdant greenward. Any one of us would combat any disparaging remark about its beauty but in spite of this and in spite of frequent reminders, bits of paper and other waste materials continue to make their appearance. Nothing deteriorates more than the careless throwing of waste paper, yet nothing should be easier to stop. Unsightly ruts caused by machines parked on the soft ground is another needless disfiguration of the campus.

There are other elements which could be mentioned but which everyone should know about and which everyone should observe.

RAH! RAH! RAH!

Earlham's first yell was composed in October, 1890:

Rah! Rah! Rah!
Ri! Ro! Rem!
E-A-R-L-H-A-M
Thee! Thou! Rah!

MORE AIR

In educational and pedagogical books these days there is much to be read regarding one of the absolute requirements for a clear-headed, wide-awake, healthy class in a school room and that is ventilation and fresh air. Nothing is more stupifying on a group of students than having to breathe vitiated air in a slightly overheated room.

Here at Earlham we do not use even good common sense in regard to ventilation, in the dormitory rooms, association rooms, and in the class rooms and chapel.

In chapel the other day four hundred of us sat a half an hour and sweat. Only two windows to the outside were slightly open. In a class twenty-five students sat through an entire class period in a room without a door, transome or window being opened. In another class of fifty or sixty it was thirty minutes before a window was opened.

These cases may be extreme and consequently unfair criteria, however they point to the advisability of keeping a good supply of fresh air at the end of the student's nose.

"LIFE"

The title of the leading joke magazine in the country is—Life. How fitting is that title! Which leads one to wonder just how big a joke life is—

"Life, the jester at the court of fate." Down through the ages there is not a master of the pen who has not played upon this subject for it is the prerequisite of all men's doings. How is it that we live here at Earlham? In the first place people do what they want to do most. Men are restless and want to move, yet if we actually wanted to be somewhere else or do something else we would do it. The question is, do we want to hard enough?

Again we may joke ourselves into believing that we are broad and cosmopolitan but it is an extraordinary man that is capable of extended learning in several fields of activity. We all naturally specialize in some phase although a thorough background of knowledge is of inestimable value in aiding the specialization.

We hear the remark, "I sure am busy."

If I just had a little time to loaf once in a while life would be better." Granted the opportunity to loaf how soon would that person long for the mental activity and trial of the task from which he had wished relief.

If you agree with these rambling sentiments—good. If you do not agree with them and they have challenged your thought, again—good.

It is said that the first musical instrument introduced at Earlham was a Jewsharp, about 1875. Could anyone suggest what the latest addition is?

CRITICISM OF EARLHAM

(Continued from page 1)

open, unevasive, thorough and compressed our committee as being clear, convincing. At every point he evinced not only an honest desire to meet every question raised, but also a purpose to speak so plainly that his meaning might not be misunderstood.

"On his own testimony we find that Dr. Purdy does believe in and teach the fundamental Christian doctrines of 'predictive prophecy,' 'the new birth,' 'the virgin of Jesus,' 'miracles,' 'the deity of Jesus,' 'the resurrection,' etc.

EXPLAIN STAND

As to differences between the complainants and the college upon the questions involved, the committee's report says, "We are forced to the conclusion that the differences are in large part due to differences in phraseology or to misunderstandings, or to questions which involve only technical theological definitions, and which do not endanger any vital spiritual doctrine, or the credibility of the scriptures."

As to scientific teachings, the committee found that it was "frankly admitted at Earlham College that theistic evolution is taught there, that God is the author of the whole system of creation and that his constant care has been exercised over it from the beginning until now." The college management claimed, the report says, "that this teaching not only accords with the best scientific standards of the present day but also makes God more realistic to the individual searching after Him, and that it gives a finer conception of his majesty and his power." In referring to the process of creation, Professor Markle, of the science department, described Earlham College's position as follows: "Instead of believing that it is a mere mechanical process entirely apart from God, we believe that it is merely the workings of God through nature."

Make Statement

The following statement is brought out by the committee; "Earlham college, as a standard educational institution can not be rightly expected to suppress the facts of science, or the theories of science commonly held by Christian educators, neither can it reply satisfactorily to the honest questionings of the masses of young men and women who come to the institution for instruction by saying that the scientific course is not a course in theology and does not have to account for theological interpretations. Both theology and science must be taught in agreement, or the teachings are bound to produce doubt and infidelity. Real science and real

Christianity do not disagree, for God is the author of them both."

The findings of the committee in regard to the science and Biblical department is summed up as follows: "There were many testimonies to the effect that the teachings of Earlham College, both in the scientific and Biblical departments had established faith and Christian character more firmly, and that the Bible had become more realistic as a spiritual guide with a personal spiritual message."

Some questions were raised relative to the tenability of the teachings of J. Herschel Coffin, in the department of philosophy.

Find Christian Faith

Dr. Coffin's attention was called to this doubt, and of the reply to the charges, made in Dr. Coffin's letter, the joint committee says: "Dr. Coffin not only avows his belief in conversion but adds that 'every man who is converted knows it by the witness of the Spirit in his own soul.' He gives an absolute affirmative response as to his belief in the atonement made by the sacrifice of Jesus, but adds his conviction that His sacrificial life is the essential factor in His atonement. He expresses his belief in 'human depravity.' There is nothing in Dr. Coffin's presentations of his position that will lead us to believe that he does not accept Jesus Christ as Lord and Savior."

The committee closes its report by saying: "Indiana and Western Yearly Meetings should not expect Earlham college to be the exception in its biblical and scientific teaching, unless it can be clearly shown by direct and abundant evidence that its present methods of teaching are bringing about the unsettling of Christian faith and character on the part of Earlham's students and unfitting them for the work of the church. In the face of the evidence produced as to the Christian character and experience of students at Earlham college, and taking into consideration the testimony of many of them to the effect that both the life and teachings at Earlham have tended to establish their Christian faith, and, in many instances, to bring about an awakening of the Christian life, we are not able to feel that there is need of anxiety on the part of the membership of Indiana and Western Yearly Meetings relative to the religious status and teachings of the college."

ALUMNI AND PERSONALS

Leslie T. Pennington... Alumni Editor

Mr. Lewis Taylor, '19, who is teaching physics and geometry at Westtown, spent several days at Earlham this week. Mr. Taylor will spend the remainder of his vacation at his home at New London, Indiana. He will return to Westtown April 5th.

Miss Auretta M. Thomas, '10, gave an illustrated lecture on "A Trip Through Spain" last Tuesday morning at chapel. Miss Thomas confined her talk to only the most unusual points of interest. Unique methods of conveyance were the most striking features of the views shown.

Miss Marianna Dickinson, '17, was married to George Packard, of Evanston, Illinois, last Saturday, at the home of her aunt in Rochester, Michigan. Mrs. Packard was awarded the Bryn Mawr scholarship in the year of her graduation. While in school she was active in the dramatic interests of the college, in the work of the Y. M. C. A., and in the Student Association of Earlham Hall. Mr. and Mrs. Packard will make their home in Evanston.

Miss Esther Thomas, '18, who is teaching at Westtown, visited friends at the college during the early part of the week. Miss Thomas went from here to her home at Amboy, Indiana, where she will remain during the rest of her vacation.

Abbie Davidson, '22, went to Ohio State University last week to attend the graduation exercises of her brother, Mark Davidson, who has finished a three year course in agriculture there.

Mrs. Bertha Arthur, of Wilmington, now teaching in the French department of Ohio State University, and her son, Edwin Arthur, '22, of the Chemical Engineering School of that University, are spending the week end as guests of Miss Elsie McCoy and of Professor and Mrs. Frank R. Elliott.

Hurford Crosman, '22, who has been lecturing through New York and New England in the interests of the Forward Movement, is now working in New Hampshire. He will return to Indiana April 5th and continue his lectures throughout Indiana Yearly Meeting.

Edna Johnson, '95, Helen Rust, '21, Marie Thurston, ex-'20, and Edna Neaderhauser, ex-'19, entertained the Earlham Negative Debate Team at Indiana University last week end. Edna Johnson is an instructor in the English department at the University. The other three are members of the senior class at Indiana this year.

Mrs. Millard Markle, student '04, is recovering satisfactorily from an operation performed a week ago at Reid Memorial Hospital. She will probably be removed to her home near the college in about ten days.

Miss Gertrude Dudley, of the Physical Education department of Chicago University and Miss Margaret Burns, her associate, were guests of Miss Comstock at the college last Monday. Miss Dudley and Miss Burns had driven to the Women's Athletic Association Conference at Bloomington and stopped on their way back to Chicago.

Mrs. Ada Stubbs Bernhardt, '79, of the Morrison-Reeves Library and Mrs. Edna Stubbs Cathell, '88, were guests at the college for dinner last Monday evening. Mrs. Cathell spoke to a meeting of the women of the college after dinner on "The Principles of Dress."

Mr. and Mrs. Jesse Henley, student '82-'84, Miss Mildred Henley, '20, and Lyle Power, '19, motored from Carthage to attend the Orchestra Recital last Wednesday evening.

Mr. Robert Elliman, student '16-'17, died at his home in West Milton, Ohio, last Sunday. President Edwards, Mr. Herman O. Miles, Financial Secretary of the College, and Earnest Pearson, '22, attended the funeral at West Milton last Wednesday.

Cebren W. Joyner, '20, who is teaching at Westtown school, has been visiting friends at Earlham this week.

Corona Rayle, '21, of Spiceland, Indiana, has been appointed Junior Superintendent of the Women's Missionary Union of Friends in America.

H. Lavinia Bailey, student '79-'85, matron of the college for a number of years and teacher of English and composition, died at the home of her brother

Y. M. AND Y. W. NOTES

Y. M. C. A.

Dr. Rae, pastor of the First Presbyterian Church in Richmond, spoke to the Y. M. C. A. Wednesday morning. The subject matter of his talk can best be shown by a few quotations: "The reason men fail is that they don't have an adequate conception of their own worth. The thing for every man to do is to measure himself against his soul's conception of God. Only when a man aims at the supreme heights can he be what he ought to be."

Joint Association

"Positive Marks of a Christian Life" was the subject taken by Earl Webb in joint association meeting Sunday evening. The theme of the talk was summarized in the phrase, "what it means to be a Christian." After classifying all people as either negative, passive, or positive, Mr. Webb gave as the positive characteristics of a Christian: forgiveness, faith, association, and service. A vocal solo by Frances Sutton with violin obligato by Miriam Hadley was the special music for the meeting.

Easter Vesper services will be held in the chapel Sunday at 4:15 in the afternoon. Friends of the college are invited to attend.

Y. W. C. A.

The Y. W. C. A. meeting Wednesday morning was an open meeting, without a leader, in which practically everyone took part. Elizabeth Thomas opened the meeting by reading the scripture lesson which suggested the theme of Easter, which was touched on in all the talks. A vocal duet was given by Miss Vetta Fellow and Miss Amelia Rarick.

Who Was Moseley?

HE was a young Oxford man, only twenty-seven when he was killed at Gallipoli. Up to his time, man had never seen the inside of an atom. He turned the X-rays on matter—not figuratively but literally—and made them disclose the skeleton of an atom just as certainly as a surgeon makes them reveal the positions of the bones of the body. Moseley proved that all atoms are built up of the same kind of matter. He saw, too, just why an atom of copper is different from an atom of gold.

Atoms are built up of electrons. Each atom consists of a nucleus, a kind of sun, with a certain number of electrons grouped about it, like planets. Moseley actually counted the number of electrons of all the metals from aluminum to gold.

When you discover what gold is made of or a new fact about electricity, you open up new possibilities for the use of gold or electricity. For that reason the Research Laboratories of the General Electric Company are as much concerned with the "how" of things—atoms and electrons, for instance—as they are with mere applications of the electric current.

Hence Moseley's work has been continued in the Research Laboratories, with the result that more has been learned about matter. How does water freeze? What is lead? Why are lead, iron, gold and tungsten malleable? Such questions can be answered more definitely now than ten years ago. And because they can be answered it is possible to make more rapid progress in illumination, in X-ray photography, in wireless telegraphy, and in electrical engineering as a whole.

There would have been no coal-tar industry without the vast amount of research conducted in organic chemistry, and no electro-chemical industry without such work as Sir Humphrey Davy's purely scientific study of an electric current's effect on caustic potash and caustic soda. Sooner or later research in pure science always enriches the world with discoveries that can be practically applied. For these reasons the Research Laboratories of the General Electric Company devote so much time to the study of purely scientific problems.

THE AIR OF REFINEMENT

To make a Home complete, more is required than chairs, tables, dishes, etc. As we think back since the musical instrument came into our home, we realize that it has stood for family "good times" and that our lives were woven around it. It was an outlet for our emotions, a tonic to our tired nerves, a voice for our happiness.

In choosing a thing which is to influence so much the home life, is it not a much greater consideration than dollars and cents? You will be sure to have a true interpretation of your emotions through the voice of music if you buy a Starr made instrument.

FREDERICK MOORE DELIVERS ADDRESS TO POLITY CLUB

World Problems Discussed by Widely Traveled Newspaper Correspondent.

Treating the subject of "The League of Nations Without America" in a masterly fashion, Frederick Moore, a newspaper correspondent of international reputation, addressed a special meeting of Polity Club, Thursday evening. Mr. Moore has had fifteen years of experience as a newspaper man in Europe and Asia, which have given him a remarkable insight into international conditions.

Starting his newspaper career at the age of seventeen, Mr. Moore became a representative of the London Times in the Balkan States, traveled throughout Europe, spent some time in charge of foreign news in Constantinople and later in China and was one of the leading American correspondents at the Paris Peace Conference. He also "covered" the opening sessions of the League of Nations, at which forty-nine nations were represented, at Geneva, Switzerland. The world-wide scope of his work, in which he is dealing with the leading men of all the great nations, gives him an unusual knowledge of present day affairs.

Mr. Moore expressed the opinion that the present League of Nations was an enduring structure and said that the European nations felt keenly the hesitancy of the United States to enter the League. He showed that the United States has a dominating position in being the only nation of the world that is absolutely unassailable today. The bankrupt condition of European countries cannot be realized by us. The great menace to world peace is the United States of America in instituting a tremendous naval program. America should enter the League of Nations and participate in world affairs.

IMPROVEMENT ON OVAL (Continued from page 1)

test comes in dual and open meets.

Captain Ivey and Beck have been capering over the hurdles in the best form while Fauquhar is stepping at a fast clip in the dashes. Of the galaxy of middle distance men, Carter, Robinson, Emslie, Robertson, Elliott show the best speed and time trials on the soggy track indicate some strong performances by these men. Dalton and Tomlinson have been staging neck and neck grinds at the longer distances. The work of Johnson in the shot and discus events looks to record worrying heaving for the Maroon. Carey and Dale and Chambers are also getting lengthy distances in discus hurling.

The jumps will be handled by Ivey and Lawler. The former is working towards the six foot region in a consistent manner, while Lawler shows class in the broad jump. Graffis and Wildman are climbing in the pole vaulting and Nicholson looks to be the most promising javelin thrower at the present time.

The latter part of next week the squad will be cut to eighteen men and these will return to college on Friday, April 8 to do intensive work for the opening, April 16.

CALENDAR

COLLEGE CLUBS

Commerce

Mr. Robert Weichman spoke to the Commerce Club at its regular meeting last Monday on the subject of "General Principles of Banking." Mr. Weichman is assistant treasurer of the Dickinson Trust Co. of Richmond.

Spanish

The program at Spanish Club Tuesday evening consisted of a talk upon "Spanish Missions in Southern California," by Cleon Davies and "The Alamo" by Gertrude Stanton. After the literary program the club joined in a game of "progressive conversation" played in Spanish.

Madrigal

The first public appearance of Madrigal Club was made Tuesday evening when they appeared in the Whitewater Friends Church. The program which they presented was varied and was much appreciated by the audience.

In addition to the program offered by the Madrigal Club there were special numbers by Professor Garton, Miss Hall, Miss Mary Reed and Miss Lois Elder.

The next concerts of the club will be at New Paris and Elkhorn.
